

VP Technical Report

October 2017

Dear Fellow Members:

I wanted to express my thanks to Dave Jaffe from The Cast Iron Soil Pipe Institute (CISPE) for presenting at our last meeting. I was traveling on business therefore I could not attend the meeting or give a report. To the officers that filled in for me in my absence, I thank you for helping me out.

Next month's meeting will be attended by Marcus Estrella of Shurjoint where he will be discussing the topic of Grooved Mechanical Systems. Marcus is the Product Manager of Shurjoint so if you have any technical questions or feel you have the need to have a specific product developed, now will be the time to ask Marcus.

As promised, listed below is the 2018 Seminar Schedule. I encourage everyone to take advantage of these seminars as they are highly educational and a better informed group makes for higher quality projects.

JANUARY 10, 2018:	MCA / ASPE / ASHRAE Joint Meeting (Julius Ballanco)
FEBRUARY 20:	ELECTRONIC MIXING VALVES (Powers)
MARCH 20:	NJ-DCA Code Assistance Unit (Tom Pitcherello)
APRIL 17:	ACCARDI (Ernest Gallo)
MAY 15:	GOLF OUTING
SEPTEMBER 18:	FUSION JOINTS (Thermco Co.)
OCTOBER 16:	WHATS NEW IN THE BACKFLOW WORLD (Nick Azmo)
NOVEMBER 20:	TBD (ASAP Sales)
DECEMBER 18:	CHRISTMAS HOLIDAY PARTY

I look forward in seeing everyone at our next scheduled meeting which is on Tuesday November 20th, 2017. I don't anticipate that I will be traveling therefore I am looking forward to seeing everyone again ☺

As always, please don't forget to visit our website at: www.new-jersey-aspe.org
