2018 Proposed Code Changes

Instructions

This form is to be used for proposing changes to the National Standard Plumbing Code. Please photocopy this form as needed for multiple change proposals.

Deadline for submission is FRIDAY, SEPTEMBER 16, 2016.

1. Fill in the blanks of the change form. If necessary use additional 8 ½ x 11-inch sheet(s).
2. All submittals must be typed. Please use a 12-point font size. NSPC assumes no responsibility for unclear or illegible submittals.
3. Submittals sent via fax will NOT be accepted.
4. Changes may be submitted electronically in word processor format or via e-mail sent to white@naphcc.org prior to the cutoff date (see form).
5. To submit proposed changes, please use a separate form for each section. If you are proposing a new chapter or appendix, it should be submitted in its entirety, rather than each section separately.
6. If the proposed change conflicts with or changes other sections, please submit separate changes for all sections so affected. For example, if a code change affects a definition, the change to the definition shall be submitted on a separate Proposed Code Change Form.
7. Your proposed change must be based on the latest edition and must also reflect the actions of the most recent changes to the NSPC.
8. Please submit the code section or subsection to be revised in its entirety. Do not leave out unchanged paragraphs. Strike through all wording to be ~~deleted~~. Underscore all wording to be added.

Example:

THE FOLLOWING AMENDMENT IS SUBMITTED: NSPC Section 12.10.5

In a single dwelling unit, ~~a in which the~~ waste stack which receives the discharge of a kitchen type sink or a 3 DFU ~~three fixture unit~~ fixture may also serve as a wet vent for a laundry or a 3 DFU fixture connected to the stack at the floor below.

Failure to follow these instructions may result in your code change being ruled improperly submitted.

Please contact Chuck White, if you have any questions about these instructions, at (800) 533-7694 or via e-mail at nspc@naphcc.org Please submit changes to:

National Standard Plumbing Code
180 South Washington Street
Falls Church, VA 22046
E-mail: nspc@naphcc.org

Committee Actions

The National Standard Plumbing Code Committee will consider proposed changes received on or by the stated cutoff date. The Committee will act upon changes as follows: Accept as Submitted, Accept as Amended, Defeat the proposed change, Table the proposed change, allow Withdrawal of the proposed change, or take other appropriate action.
